RANKING LIST OF

JOINERY
MANUFACTURERS
IN EUROPE

edition 2023

500

WINDOWS DOORS GARAGE DOORS FAÇADES SCREENS

about the ranking list

Robert Klos

Managing Director
Centrum Analiz Branżowych

We are publishing the second edition of the list of top window and door joinery manufacturers in Europe. This time, we have listed as many as 500 leading window, door, garage door, screen, and façade manufacturers.

The total number of window and door joinery manufacturers in Europe is estimated at a dozen thousand. The compilation we have prepared covers a few per cent of the companies, but these are the ones that manufacture around 50% of windows, doors, and roller shutters in Europe and decide about the directions in which the sector is developing.

While working on the compilation, we checked financial performance of several thousand joinery manufacturers from 36 countries (you will find enterprises from 29 countries there). The list includes manufacturers generating turnover between EUR 15m and over EUR 600m.

This study presents a list of more than 500 leading manufacturers along with the turnover, contact data, and specialisation of the individual businesses.

Maksymilian Miros

Chief Analyst
Centrum Analiz Branżowych

In short, the list comprises:
